

We honor your commitment to your original mission statement. The core vision you captured in your legacy video remains the authentic, guiding heart of your organization. However, the way the online world views and interacts with video has fundamentally changed, which means it is time for a ReFresh Makeover.

Step 1: The Timeline ReFresh

- What we actually do: We watch your classic Mission Statement video and tailor it into clear, labeled chapters.

Step 2: The Action ReFresh

- What we actually do: We enhance your video description from a dated broadcast into an active invitation using our AskME method. This invites InteReAction with the viewer.

Step 3: The Truth ReFresh

- What we actually do: We place an official "Data Guard" notice at the top of your video description and hand you a beautiful, printable AEIA Certificate for your files.
